#### 2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

According to the regulatory requirements of the affiliating university all departments conduct internal assessment of their students. This internal assessment constitutes two parts -firstly, a mark is allotted to students for regular class attendance, and secondly, internal examinations are taken by departments in various ways (MCQ test, project work, viva voce etc.). Total answers obtained by the students in internal assessments are uploaded on the portal of the affiliating university. A minimum marks is to be scored by the students in the internal assessment along with stipulated minimum marks in theoretical examination to qualify in the final semester examination on a particular subject. Apart from that, under the guidelines of the IQAC different departments follow the under mentioned procedures: • Review by teachers of MCQs framed by students • Assignment distribution • Group Discussion • Course evaluation by the teacher in order to assess students' level of understanding. • Mock Teaching and Board Work by students • Subject related Quiz Programmes.

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time- bound and efficient

Whatever system of internal assessment is in place- be it taking class/surprise tests, distributing assignments - everything is

done in a transparent manner. Every student is evaluated on merit and his/her performance. In case of assignments, once they are checked by the teachers they are returned to the concerned student with comments attached to them for necessary follow up action by the latter. Post Publication Review/Scrutiny: The Head of the Institution and the respective departmental heads take appropriate actions according to the guidelines set by the parent university in this regard. A scientific approach to grievance redressal is in place. Continuous follow up is done by the institution to take care of any grievance. The institution provides all kind of official and administrative support to students for redressal of their grievances. The institution takes special care to facilitate (strictly complying with the affiliating varsity norms) Students otherwise engaged in vocational pursuits are allotted revised exam schedule if they fail to write their internal exams at the first chance offered by the institution

#### 2.6 - Student Performance and Learning Outcomes

2.6.1 - Teachers and students are aware of the stated Programme and course outcomes of the Programmes offered by the institution.

Departments prepare COPOs on courses and programmes offered by the college. They are displayed on the official website of the institution. From the day of commencement of classes, departments take necessary steps to impress upon the students the possible outcomes of the course and programme they have enrolled. Departments organize Orientation Programmes for the newly admitted students at the beginning of the session. In such programmes the purpose of the COPOs are explained threadbare to them. Departments distribute copies of the COPOs to their respective students. They are also apprised of the availability of them on the institutional website. The faculties strongly believe that unless and until the meaning and the purpose of the COPOs is properly comprehended by the students they can't be motivated to work on them as it were, least of all to attain the stated goals of the COPOs. Certificate Courses offered by certain departments and the occasional Internship Programme organized by Journalism do actually in some way supplement the spirit of the COPO and give a clear idea to the students about the promise the courses and the programmes hold for them in future.

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

The institution is yet to use a scientific technique to assess COPO accomplishment. However, we attempt to assess how far various objectives stated in COPOs are being attained by analyzing student performance in various activities below are a few of those initiatives:

Review and analysis of results of students in different Semester Examinations conducted by the affiliating university; Performances of students in separate Semester Examination are considered for reviewing attainment of Cos, and overall Programme result, after adding up the results of all semesters, is analyzed for evaluating PO attainment; apart from reviewing individual semester results and final results, performance of students in different internal evaluations is also examined as a process of COPO evaluation; Evaluation of attainment of COPO particularly set for advanced learners is made through their performances in Students' Seminars, contribution in wall magazine, departmental publications, participation in Group Discussion and their selection in Internship programme arranged by the department; Different departments, IQAC and Governing Body analyze different feedbacks reports collected from students and this practice can also be stated as a method of evaluating COPO attainment. IQAC has prescribed a methodology for tracking our alumni progression.

# 2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

According to the regulatory requirements of the affiliating university all departments conduct internal assessment of their students. This internal assessment constitutes two parts -firstly, a mark is allotted to students for regular class attendance, and secondly, internal examinations are taken by departments in various ways (MCQ test, project work, viva voce etc.). Total answers obtained by the students in internal assessments are uploaded on the portal of the affiliating university. A minimum marks is to be scored by the students in the internal assessment along with stipulated minimum marks in theoretical examination to qualify in the final semester examination on a particular subject. Apart from that, under the guidelines of the IQAC different departments follow the under mentioned procedures: • Review by teachers of MCQs framed by students • Assignment distribution • Group Discussion • Course evaluation by the teacher in order to assess students' level of understanding. • Mock Teaching and Board Work by students • Subject related Quiz Programmes.

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, timebound and efficient

Whatever system of internal assessment is in place- be it taking class/surprise tests, distributing assignments everything is done in a transparent manner. Every student is evaluated on merit and his/her performance. In case of assignments, once they are checked by the teachers they are returned to the concerned student with comments attached to them for necessary follow up action by the latter. Post Publication Review/Scrutiny: The Head of the Institution and the respective departmental heads take appropriate actions according to the guidelines set by the parent university in this regard. A scientific approach to grievance redressal is in place. Continuous follow up is done by the institution to take care of any grievance. The institution provides all kind of official and administrative support to students for redressal of their grievances. The institution takes special care to facilitate (strictly complying with the affiliating varsity norms) Students otherwise engaged in vocational pursuits are allotted revised exam schedule if they fail to write their internal exams at the first chance offered by the institution

# 2.6 - Student Performance and Learning Outcomes

2.6.1 - Teachers and students are aware of the stated Programme and course outcomes of the Programmes offered by the institution.

Departments prepare COPOs on courses and programmes offered by the college. They are displayed on the official website of the institution. From the day of commencement of classes, departments take necessary steps to impress upon the students the possible outcomes of the course and programme they have enrolled. Departments organize Orientation Programmes for the newly admitted students at the beginning of the session. In such programmes the purpose of the COPOs are explained threadbare to them. Departments distribute copies of the COPOs to their respective students. They are also apprised of the availability of them on the institutional website. The faculties strongly believe that unless and until the meaning and the purpose of the COPOs is properly comprehended by the students they can't be motivated to work on them as it were, least of all to attain the stated goals of the COPOs. Certificate Courses offered by certain departments and the occasional Internship Programme organized by Journalism do actually in some way supplement the spirit of the COPO and give a clear idea to the students about the promise the courses and the programmes hold for them in future.

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

The institution is yet to use a scientific technique to assess COPO accomplishment. However, we attempt to assess how far various objectives stated in COPOs are being attained by analyzing student performance in various activities below are a few of those initiatives:

Review and analysis of results of students in different Semester Examinations conducted by the affiliating university; Performances of students in separate Semester Examination are considered for reviewing attainment of Cos, and overall Programme result, after adding up the results of all semesters, is analyzed for evaluating PO attainment; apart from reviewing individual semester results and final results, performance of students in different internal evaluations is also examined as a process of COPO evaluation; Evaluation of attainment of COPO particularly set for advanced learners is made through their performances in Students' Seminars, contribution in wall magazine, departmental publications, participation in Group Discussion and their selection in Internship programme arranged by the department; Different departments, IQAC and Governing Body analyze different feedbacks reports collected from students and this practice can also be stated as a method of evaluating COPO attainment. IQAC has prescribed a methodology for tracking our alumni progression.
